

# VIJAYKUMAR D

SOC Analyst | Cyber Security Professional

+91 9059067422 • dvijaykumar2128@gmail.com • Hyderabad / Andhra Pradesh, India

## PROFESSIONAL SUMMARY

Results-driven SOC Analyst with 8.5+ years of IT experience, including 5+ years specializing in cybersecurity operations, incident response, and threat detection. Proven expertise in Splunk Enterprise Security (ES), CrowdStrike Falcon EDR, and Mandiant (Google) security platforms. Adept at identifying and mitigating advanced persistent threats, fileless malware, and sophisticated attack vectors using MITRE ATT&CK and Cyber Kill Chain frameworks. Experienced in 24x7 GSOC operations and compliance reporting. Seeking a challenging SOC Analyst role to drive security excellence in an enterprise or MNC environment.

## TECHNICAL SKILLS

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| SIEM Platforms        | Splunk Enterprise, Splunk Enterprise Security (ES), Splunk Architecture (Forwarder, Indexer, Search Head) |
| EDR Solutions         | CrowdStrike Falcon (Detection, RTR, Host Management, Policy Administration, IOC Management)               |
| Threat Intel / IR     | Mandiant MATI / ASM / MASV, CISCO Talos, VirusTotal, MXToolbox, URLScan                                   |
| Security Frameworks   | MITRE ATT&CK, Cyber Kill Chain, Incident Response Lifecycle                                               |
| Malware Analysis      | Dynamic Analysis, Phishing Investigation                                                                  |
| Cloud & Platforms     | Google Cloud Platform (GCP), Google SecOps, Mandiant Advantage                                            |
| Ticketing / Reporting | ServiceNow ITSM, Salesforce, Incident Reports, Daily/Weekly SOC Summaries, SLA Management                 |
| Programming           | Java, Spring Boot, Groovy, JavaScript                                                                     |

## PROFESSIONAL EXPERIENCE

### Security Analyst – SOC (L2) | EPAM Systems India Pvt. Ltd.

Aug 2023 – Feb 2026

Project: Managed Service Operations | Tools: Splunk, CrowdStrike Falcon EDR

- Monitored and triaged 150+ security alerts daily across Splunk ES and CrowdStrike Falcon, maintaining SLA compliance on P1/P2 incidents with <30-minute response times.
- Investigated and contained advanced malware threats including Emotet fileless malware using CrowdStrike Real-Time Response (RTR), successfully isolating compromised endpoints and preventing lateral movement.
- Executed end-to-end incident response lifecycle (Identification → Containment → Eradication → Recovery) for high-severity incidents, reducing mean time to resolve (MTTR) by ~25%.
- Performed dynamic malware analysis and phishing investigations, classifying true/false positives and escalating confirmed threats to L3/IR teams with full forensic documentation.
- Administered CrowdStrike Falcon environment: host/group management, sensor policy creation, IOC ingestion, agent deployment/removal across 1,000+ endpoints.
- Developed and tuned Splunk ES correlation searches to reduce false positive alert volume by ~30%, improving SOC analyst efficiency.
- Integrated new log sources (Windows, Linux, Cisco Firewall, Routers, Switches) into Splunk ES and resolved data ingestion issues, ensuring 99%+ log availability.
- Generated Incident Reports and Daily/Weekly SOC Summary Reports for management, supporting compliance and audit requirements.
- Operated in 24x7 GSOC environment, adhering to SOPs, SLAs, and escalation procedures for a global enterprise client.

### Security Analyst – SOC / Google Mandiant (L2) | EPAM Systems India Pvt. Ltd.

Mar 2022 – Aug 2023

Project: GCPF – Mandiant & Google SecOps | Client: Google Inc. | Tools: Mandiant, GCP, Splunk ES

- Provided 24x7 technical and provisioning support for Google/Mandiant security products (MATI, ASM, MASV, MD) during their transition to Google Cloud Platform.
- Troubleshooted and resolved complex customer issues via remote sessions across Mandiant's Advanced Threat Intelligence, Security Validation, and Attack Surface Management modules.

- Managed user provisioning workflows (account creation/deletion, password resets, role assignments, license generation) for 100+ enterprise customers on Mandiant Advantage.
- Approved and processed Google SecOps license extension requests; raised product bugs and feature requests to engineering teams with reproducible documentation.
- Identified and escalated data-ingestion issues to the engineering team, ensuring continuous log flow and SOC visibility.
- Recognized with Google 'Great Job!' Badge and EPAM Talent Badge for exceptional customer support and technical resolution quality.

### **SOC Analyst / Software Engineer | Crown Solution India Pvt. Ltd.**

*Feb 2021 – Dec 2021*

*Project: MSSP Healthcare | Tools: Splunk ES, ServiceNow*

- Performed real-time 24x7 security event monitoring and analysis across Splunk ES dashboards for a healthcare MSSP client.
- Classified and escalated true positives from 50+ daily alerts; eliminated false positives through IP/domain reputation analysis using VirusTotal, URL Void, and IP-Void.
- Authored weekly and monthly incident reports and participated in client-facing huddle calls, presenting security metrics and risk summaries.
- Created and managed incident tickets in ServiceNow, tracking cases from detection through resolution and ensuring SLA adherence.

### **Java Developer | Group FIO India Pvt. Ltd.**

*Dec 2019 – Oct 2020*

*Project: DBS Bank CRM Re-platforming (Microsoft Dynamics → OFBiz) | Tools: Spring Boot, Groovy, JavaScript*

- Developed frontend and backend modules for CRM features (Customer Profile, Service Requests, Campaign/Sales Management) serving a major APAC bank.
- Authored Groovy scripts to automate report generation; implemented FTL templates for UI screens. Received award for handling challenging client deliverables.

### **Software Engineer | Vasista Enterprises Solution Pvt. Ltd.**

*Apr 2017 – Jul 2019*

*Project: MilkoSoft ERP (Accounting, HR, Inventory, Manufacturing)*

- Designed data models and implemented business logic in Java for the Accounting module of an ERP serving dairy industry clients (Aavin, NHDC).
- Wrote Groovy scripts and FTL templates for automated financial report generation across multiple enterprise clients.

## **EDUCATION**

---

### **Master of Computer Applications (MCA)**

*First Class with Distinction*

Jawaharlal Nehru Technological University (JNTU)

## **PERSONAL DETAILS**

---

**Date of Birth:** 27 November 1992 | **Nationality:** Indian | **Languages:** English (Fluent), Telugu (Native)
